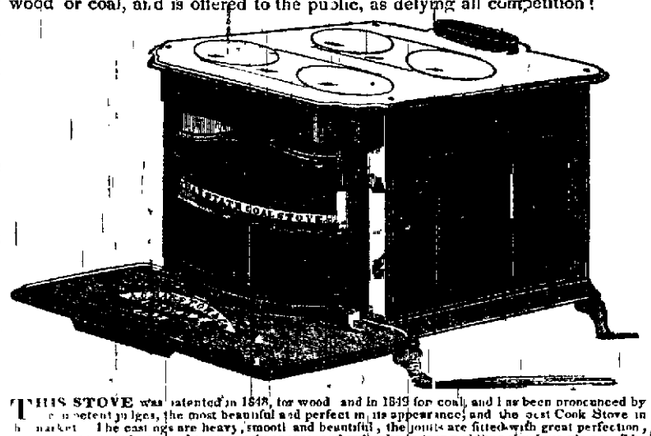
THE BEST STOVE NOW IN USE.

THE BAY STATE
COOKING STOVE,
Is unsurpassed by any other Stove now in the Market, being fitted for wood or coal, and is offered to the public, as defying all competition!



THIS STOVE was patented in 1848, for wood and in 1849 for coal, and has been pronounced by competent judges, the most beautiful and perfect in its appearance; and the best Cook Stove in the market The cast ings are heavy, smooth and beautiful, the joints are fitted with great perfection, are very large and very nearly square, and will take in four middling sized pie plates The arrangement that the wood lays and burns upon the ashes instead of a grate by which means the iron is preserved for a long time, and as the oven projects under the fire chamber the fire and reduce a beautiful heat over the front of the oven and causes the whole oven to heat equally a beautiful apparatus for toasting and broiling, by which means all the smoke is taken off in-

The oven has a cylindrical or oval cylinder, lined with soap stone, or fire brick; and confesses the best form of fire chamber in which to burn coal
I am confident is the subscriber in the superiority of the above Stoves over all others in the market that he will after a fair trial of thirty days, refund the money and all expenses if it does not meet the expectations of the purchaser
The largest and best selected and most desirable Stock of Air Tight Cooking, Office and Parlor Stoves, in this market for Wholesale and Retail Also, Cooking Ranges and Hot Air Furnaces, at prices to suit the times
On hand as usual a large assortment of LEAD PIPE CASTINGS, COPPER and TIN WARE, and all other articles usually found in establishments of the kind
N. B. COPPER SHEET IRON and TIN WARE manufactured as above, and by the best of workmen
Orders gratefully received and promptly Executed

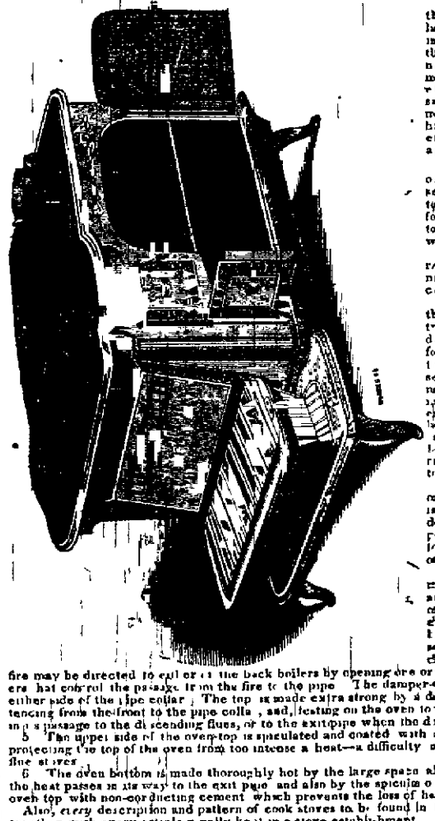
REPUBLIC AIR-TIGHT
COOK STOVE.



THE subscribers, in offering their new Stove called the "Republic," of which is annexed engraving, is a correct representation, to the consideration of the public do not deem it necessary to recommend it as superior to every thing else, or a cure for all the ills of life, satisfied that persons of good judgment and economy will not withhold their approbation, but will, at least on trial find it all they want of a good cooking stove;
Believing that those who thoroughly examine their stove will not seek a better one they would offer to those unacquainted with it the following reasons why they expect to share freely the favors of those who wish to purchase
1 Its general economy of arrangement, comely proportions ornamental appearance, and heavy castings
2 The particular construction of the top plate by which either of the two front holes may be enlarged in diameter from three to four inches, for the accommodation of brass kettles, or other large bottomed vessels or they may be united by removing the two flat out pieces, forming an oblong oval twenty one inches by eleven in the No 8 or 9 inch hole stove there is affording a place for the reception of an unusually large sized boiler at the same time removing the exposed part of the top from the intense heat of the fire
3 A drop front door with an air or draft slide, by which the furnace is supplied with heated air This door, when let down to a horizontal position, makes a convenient platform for a broiler, toasting iron, for other utensil
4 The flues or fire passages are much larger than in ordinary stoves, and rounded which never the direction of the current is changed thereby ensuring a full and free draft of air behind and under the oven, the smoke-pipe, when the dampers are closed. By the whole force of the fire may be directed to all or any of the back boilers by opening dampers on the other of the two oblong cast-iron ears that control the passage from the fire to the pipe The damper-turns pass through the top plate on either side of the pipe collar The top is made extra strong by a deep flange cast on the inside, and tancing from the front to the pipe collar, and, resting on the oven top, drives the current from the fire into a passage to the descending flues, or to the exit-pipe when the dampers are open
5 The upper side of the oven-top is speculated and coated with a non-conducting cement, thereby preventing the top of the oven from too intense a heat—a difficulty much complained of in reversible flue stoves
6 The oven bottom is made thoroughly hot by the large spaces allowed to the flues through which the heat passes in its way to the exit pipe and also by the specials on the stove bottom, coated like the oven top with non-conducting cement which prevents the loss of heat downwards
Also, every description and pattern of cook stoves to be found in his market *without any exceptions* together with every article usually kept in a stove establishment

RUSSIA.

In our former articles we have endeavored to define the position of Austria and Hungary; inquire we to-day concerning the condition of the gigantic empire of the North. And here we find the antipodes of doting Austria. Here we find strength and progress instead of weakness and decay. Russia in many respects is the most powerful government the sun shines upon. Nicholas reigns over about seventy millions of the human family. He can summon resources such as no monarch in Christendom can command. He has eighteen millions of well disciplined men. He has fleets upon the Euxine and fleets upon the Baltic, and his territory extends over one seventh of the habitable globe. When we consider the lofty and ambitious character of the Czar, and the able ministers he has called in to aid him, and further, when we look steadily at his internal and external policy, we are irresistably drawn to the conclusion that it is his aim to found a universal dominion. To the accomplishment of these objects he has been gradually humbling the pride of a haughty and powerful nobility, who were always fomenting dissentions at home, and consequently, weakening the internal state of the empire. He is endeavoring to rival Great Britain in the efficiency of his navy, and he is paving the way for the subjugation of Turkey.

Making his aggressions too slowly to attract the attention of the other powers, he has finally seized upon Poland and made her an integral portion of his own empire. Sweden and Norway are only nominally independant, and ere long some pretext will be made for incorporating them into his empire. Their Senate, says Maxwell, is already subservient to Russia. And what is her policy in the East? Why does she disturb the Circassian and Georgian in the fastnesses of their mountains? Because when they are completely subdued her fleets can ride in safety upon the Caspian, and she has then an outlet for them to the Indian Ocean, and the Cabinet of Great Britain has experienced the greatest alarm for the safety of her Indian possessions. The British revenue arising from those possessions is a hundred millions of dollars per year, and this is the prize that invites the aggressions of Nicholas. But he does not desire an immediate contest with England; Turkey must first be subdued; the Asiatic nations must be more effectually brought under his power. He must not be harrassed in *that* quarter.

But what is Russia's position at the present time on the great chess board of Europe? She has just achieved a disgraceful victory over the Hungarians, while Austria who solicited her assistance, has lost her independence, and the prestige of her powerful name. The world-renowned champions of Liberty who have escaped the Russian steel, have fled for succor to the Turk, and Russia, contrary to all recognized laws of war, now demands their extradition, and threatens the Sultan with war if he does not comply with his demands. The Sultan refuses, and to the secret gratification of the Czar, he has now found the *casus belli* he has so long desired. But will other nations look tamely on and see Turkey made another Poland of? Will England submit to the Czar's taking possession of the Dardenelles? England loves peace, but Turkey once conquered, and it is all over with her as regards her future supremacy. She cannot submit to behold the Russian eagles floating upon the minarets of San Sophia. Neither will France. If the Czar persists in his demands, the gleam of two hundred thousand bayonets will be seen at once on the Danube.

The Moscow expedition is still fresh in the memories of Frenchmen, and the dreadful retreat of Napoleon with the grandest army of the world is too well remembered. Desirous as France and England are to aid the cause of despotism against the rights of man, they cannot allow Russia to become *too* powerful. It may be that Europe is on the eve of a general war, and that the spark has already been kindled which will plunge in dreadful conflagration the peaceful abodes of millions, but in our opinion no war will arise from this demand upon Turkey. But will Russia, after her imperative demand for the Hungarian refugees, back out and show the white feather? We think the Czar is no braggart or charletan, such has not been his character, and he cannot afford to make himself the laughing stock of Europe.—We repeat he will not retreat from the frontier he has taken, but some middle ground will be shown him by the diplomtists of Europe. He is not yet prepared to pounce upon Turkey, for the reason he is not prepared to enter the deadly conflict with the allied powers of Great Britain and France. England could do her immense damage. She could hermetically seal her ports in a few weeks. She has only to blockade the ports of Riga, St Petersburg, Archangel and one or two more, and the frost will do it for the rest of the season. The nobles in the meantime would lose their market for flax, hemp, and tallow, and Nicholas would gladly come to terms to avoid destruction from his own nobility. The Czar of Russia does not forget that he cannot travel with safety beyond the precincts of St. Petersburg, unless in disguise, and he cannot forget either, that since the foundation of the Russian empire, there has been assassination of a prince of the blood every twenty-five years.

After all what is the strength of a despot whose subjects hate and despise him? What happiness can there be in a nation of spies, who mark each others slightest accents to report disloyalty. Russia may present a formidable front from without, but within there may be the elements of decay, and while the nation are trembling with dread at their formidable opponent, they may strike him down before their eyes.

All Europe is a seething cauldron, and what bubbles may come up time only can determine, but of one thing we are certain, that there is now a death struggle going on between the powers of despotism and the might of liberal principles, and what Napoleon said at St Helena may be true "that in fifty years Europe would either be republicanized or fall under the despotism of the Czar." W.

☞ The editor of the Jeffersonian, with a recklessness which is anything but honorable, still insists that no petition was signed by 'Democrats' in Hampden, for the removal of Mr. Holt, Postmaster. This is on the principle of a lie well stuck to, being as good as the truth.

We have referred the Jeffersonian to two members of its party who were interested in that petition, and we could easily refer to others, in proof of our statement. If the editor of the Jeffersonian believes his statement, why not call upon those men, as they would at once show us to be in error, if such were the fact. But nothing of this, from that quarter, in this instance.

The Jeffersonian refers us to the traitor John Tyler, in proof of the negative of our proposition. A fitting source, we admit, for such kind of proof. But it does not touch our case. The traitor, Tyler, appointed Mr. Holt to office, and the petition we refer to, was sent not to him to undo his work, but to Mr. Polk, to appoint Mr Phipps in place of Mr. Holt.

We could raise the curtain a bit, and show up some of the machinery not usually permitted to the rank and file of the loco party, when their leaders have a special matter in hand and let them see how Mr. H. happened to be appointed at the tag end of Tyler's term, and why so large a petition was sent forward for Mr. Phipps against Mr. Holt. We may do this if the Jeffersonian continues to dispute the fact we stated, and which is so generally known, and conceded in Hampden.

History of the World.

Mr Bill the agent for the sale of the History of the World, is now in this city. This large and valuable work by Samuel Maunder, edited by John Inman, Esq, including the late war with Mexico, is illustrated by a large number of good wood engravings, is published in the good style of the Harper & Brothers, New York and bound in a substantial and showy style.

This work has been highly commended for its fulness—and accuracy. Those who are solicited to purchase, need have no fear of obtaining a work of ordinary merit.

☞ A carpenter in Salem, Mass, is getting up small houses for shipment to California. They are constructed in sections and may be set up in a short time at any place, and when taken apart can be closely stowed in a small compass. They are twenty by twenty-four feet and cost $125.

☞ Our correspondents must exercise a little patience for a few days. We are doing all we can to accommodate them, and even lay by our own writing to give them space. The series of able articles on Hungary, Austria and Russia which have appeared cannot fail of being relished at the present time.

☞ Theodore S. Brown, Esq. has brought us two of the largest turnips of the season, raised upon his farm in this city—one of them weighs seventeen pounds dressed and trimmed, and is as full as an old fashioned Alderman. It will be hard to beat these. He sends a lot of 1200 bushels to Boston.

A remarkable specimen of Indian corn is to be seen in Baltimore. The stalks are about eleven feet in height, and on the four exhibited there are eighteen ears, large and well filled.

The amount of imports at New York for the week ending Nov. 5, was $1,031,616, of which $095,239 was dutible goods.

Mr. Porter, U. S. Consul at Constantinople, left Smyrna for home, in the bark Manchester, which sailed for Boston, Oct. 1st.

Foreign Items.

A large and highly respectable meeting, presided over by the Lord Mayor, took place at the Egyptian Hall, London, on the 17th ult., relative to the proposed exhibition of the industry of all nations, in that city, during the ensuing year. The best feeling was evinced towards the plan of the projectors, and it was proposed to raise by subscription, the sum of £20,000 to distribute in premiums. All nations are invited, without distinction or preference, and the promoters of the design feel no misgiving of the possibility of raising £100,000 or more, for the general expenses of the exhibition.

A conflict, attended with fatal results, took place on the 13th, at Killaly, in Kings county, in which three policemen were killed or mortally wounded, and several others were seriously wounded. Several volleys were subsequently fired into the barracks, whither the survivors of the constabulary had been compelled to retreat, and the corn was carried off in triumph by the peasantry.

Gen. Haynau, in his administration of the military affairs of Hungary, loses no opportunity to maintain the sanguinary character that has so universally been applied to him. He has thus far succeeded in murdering, under the guise of a court martial, thirteen Hungarian Generals, who delivered themselves up at the close of the war, and induced their soldiers to lay down their arms. To make the tragedy display a suitable catastrophe, Count Batthyany, the Prime Minister of Hungary, has been shot, under circumstances which will forever make the Austrian name synonymous with cruelty, treachery and dishonor. To render the last hours of this brave and accomplished nobleman as bitter as possible, he was sentenced to a malefactor's, instead of a soldier's death. To avoid the ignominy of the halter, the wife of the patriot had a dagger conveyed to him in his linen with which to anticipate his doom. The Count did not succeed in the attempt at suicide, but his throat was so much injured by the wound he had inflicted, that he prevented his murderers from strangling him by the cord. He fell, pierced to the heart by the bullets of Austrian soldiers, his last words being "*My country forever!*" Some ladies of the highest class endeavored to dip their handkerchiefs in the blood of the fallen patriot, but were prevented by Austrian bayonets.

A letter from Semlin, dated October 10th, says that an Austrian general had arrived at Widdin, from which the dates reached to the 6th) with a letter from General Haynau to the Pache, by which the Hungarian refugees, from the Sergeants downward, are pardoned, in consequence of which, the greater part of them returned to Hungary. The Austrian General then proceeded to Constantinople.

Several hundred officers of those furnished with passports from Comorn, have passed through Berlin, on their way to the west; some of them are going to America. Klapka is said to have been among these refugees, and to have embraced the resolution of crossing the Atlantic, with 300 others.

According to Lloyd's Vienna Gazette, Hungary is to be divided henceforth into ten districts, each district to have its own provincial government; the deputies to be chosen by a majority of votes of the population.

A letter from Belgrade of the 1st inst., states that the Hungarian refugees were still at Widdin, ready to set out for the destination assigned to them. They were divided into three camps—Italian, Hungarian, and Polish; each camp is under the order of a Colonel, and each man receives daily rations, according to his grade, like the British troops. Prince Alexander, of Servia, had behaved very well towards them, allowing them free passage through his territory and provisions. Bem, Dembinski, and several other chiefs have not only embraced Islamism, but entered the Turkish army.

The Cholera in Bangor—Effects of Practice, &c.

To the Editor of the Whig and Courier:

I had heard various rumors concerning the cholera, which recently prevailed in this city, that I knew to be false, but intended to take no notice of them, considering the source whence they originated. But a few days since a gentleman put into my hands, No 23, Vol. 11 of the New England Botanical Medical and Surgical Journal—Calvin Newton M. D. Editor and Proprietor, Worcester, Mass, containing several articles to which I wish briefly to refer. The Editor writes as follows under date of Oct 16, 1849:

Cholera in Bangor.

[The following letter from Prof. Cummings of this city, will be read with interest. The Professor was sent for, not long since to take charge of cholera patients in the hospital at Bangor, Maine, in the absence of Dr Isaac Jacobs who had received the trust from the city government.

Extracts from the letter referred to above.

'Dear Sir: I had a fine trip up here and hence had ample chances to see the cholera in all its forms. * * * It is said by those best informed, that there has not been a single recovery from a marked case of cholera in the hands of the Allopathists in this city. Dr Rich the oldest and most skilful of this class of physicians, says that the '*Hotcrops*' (Thomsonians) have been far more successful than all others—and he is willing to give them credit for it. * * There are only a few cases remaining. These seem to yield to our remedies very easily for you must know that our success has given us most of the cases of late. I have had charge of the convalescent patients in the hospital since Dr Jacobs left. They are all doing well. * * * I remain ever yours,

J. M. Cummings.'

Bangor, Me, 29th Sept., 1849.

As to the foregoing I have to say, that I was appointed superintendent of the Cholera Hospital, by the City Council, and continued to act as such while it was kept open. I was not before aware that I had any colleague. The Allopathists of this city by no means need any defence at my hands, but I will simply state, though I lay no claims of being one of the 'best informed,' that I have the means in my possession, to show that an Allopath treated at least ten 'marked cases' of cholera which recovered, and I will let the Professor know the names, at any time when he will take the trouble to call upon me.

I am authorized by Dr Rich to say, that he did not speak to Prof. Cummings during his recent visit to this city, and that the remark attributed to him is false.

I never saw Prof Cummings in the hospital at any time, nor heard of his being there more than once, though I spent most of my time there for the first two weeks, and afterwards visited it as often as three or four times a day on an average.

I. Jacobs under date of Bangor, Oct., 1849, writes as follows:

Cholera in Bangor.

Prof. Newton—

Sir: We have had quite a visitation of the cholera in the city of Bangor. * * * During the first week the Allopathists had the hospital entire, and lost every patient, that entered it. The second week, I treated eight patients with the Thomsonian medicines successfully, and continued to prescribe for all the patients brought to the hospital, except three with the same success while the hospital was kept open, and during the prevalence of the disease.

It is now generally conceded by all classes, that the Thomsonian medicines were instrumental in saving all that were fortunate enough to survive the attack—except some claim that Homoeopathy has been a successful mode in some instances and in slight attacks. It probably has been useful or preferable to the old practice, but after all I can learn I much doubt, whether it has ever relieved or cured one in the collapsed or last stage of the disease. * * * *

The facts are, that 'during the first week' that the hospital was open nearly or quite one third of the patients recovered. Of those who entered the hospital the second week, Dr Jacobs prescribed for seven—three of whom died. For two of the other number stated, I prescribed for some time before their recovery. After the second week he prescribed for three patients upon their entrance, one of whom died. For the other two I prescribed in a few days after they were admitted and before there was any marked improvement in their disease.

During the second week and afterwards, twenty-seven patients were admitted to the hospital, so that there must have been some mistake as to Dr Jacob's prescribing for all 'except three' who during that period, as I have intended to state correctly the number for which he did prescribe.

More—much more might be said as to the articles alluded to, but I have no wish for any extended discussion, and would have let the whole affair pass in silence, but that some of the statements referred to are so palpably untrue as positively to demand notice.

S. B. MORISON, City Physician.

CANADIAN AFFAIRS.—A Circular has been addressed by the Adjutant General of militia in Canada, to all the commanding officers of the various militia corps in Montreal, desiring that they will ascertain if any of their officers signed the annexation address; and if so whether it was of their own free will and accord. With those holdings her Majesty's commission as justice of the peace the Provincial Secretary has done likewise. But they do not stop here. The government announce that they will deprive all those who have signed the address, no matter how high their station, of all offices in the gift of the Crown. This will leave the Militia, the Montreal Cavalry with but one officer.

A WEDGE OF GOLD. We are indebted to Mr Parrott for the inspection of several pieces of Gold, which he procured from California.—Among them is a rude lump, with all the marks upon it of having been disintegrated in that form from the bed in which it was deposited, and weighing about two pounds—worth about $541. We have seen a variety of specimens, dug up from the mines of Virginia and North Carolina, and from the placers of California, but this piece surpasses them all.—Wash. Union.

A New Singing Book!

THE
AMERICAN VOCALIST,
BY REV D H MANSFIELD
PUBLISHED a few months since has had a most rapid sale The Revised Edition is enlarged by the addition of 171 choice tunes, and it now contains more than any other collection It is divided into three parts, all of which are embraced in one volume, and is designed for the church, the vestry, and the parlor
PART I consists of Church Music, old and new, and contains the most valuable productions of Billings, Holden, Maxim Read Holyoke, Edson Morgan, Pool, Holbrook, West, Wyeth, Swan, &c, and eminent American Authors now living—Mason, Webb, Woodbury White, Kingsley, &c &c &c—as well as of the most distinguished European composers, as Handel Haydein Mozart, Beethoven Pleyel, Mazzinghi, Croft, Greene, Arne, Milgrove, Kent, Swadlich, Costello, Williams, Randall, Weber, Neukomm, Cherubini, Giardini, Hadiger, Vesha, Burgmuller Mann, Winesenthal, Werneser, De Penna &c &c, in all 230 Church Tunes adapted to every variety of metre found in the Hymn Books, used by all the religious denominations in the country, besides a large number of Anthems and select pieces for special occasions
PARTS II AND III contain all that is valuable of the Vestry Music now in existence consisting of the most popular Revival Melodies, and he most admired Sing ish, Scottish, Irish, Spanish and Italian songs, arranged for four voices, expressly for this work, and accompanied with appropriate sacred poetry, embracing in a single volume more than 600 tunes adapted to every occasion of public and social worship and containing nearly all the *gems* of music that have been composed within the last 500 years, and a large number of tunes never before published, the whole designed as a standard in every department of sacred Harmony
The poetry alone would fill a large volume a whole hymn being set to a tune instead of a single verse It contains, also a plain and concise System of Elementary Instruction, and is particularly adapted to Singing Schools, Musical Societies, and Choirs
MR MANSFIELD has been a teacher of Vocal Music for eighteen years, has travelled extensively in all parts of Northern and Middle States, and has spared no pains or expense to make himself acquainted with the kind of music demanded for popular use in this country No alteration will be made in future editions
Teachers and others are invited to call and examine the Book

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter, and warranted superior to any sold. It cures without vomiting purging, sickening, or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates diseases it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known. It not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood*, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success.—It has performed within the last five years, more than 100,000 cures of severe cases of disease, at least 15,000 were considered incurable. It has saved the lives of more than 5 000 children during the two past seasons.

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL

As it renews and invigorates the system gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree

CONSUMPTION CURED,

Cleanse and Strengthen. Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats Difficult or profuse expectoration, Pain in the Side &c, have been and can be cured

SPITTING BLOOD

New York, April 28, 1847

DR TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood had night sweats and was greatly debilitated and reduced and did not expect to live—I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results

Your obedient servant,

WM RUSSELL, 65 Catharine-st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq, one of the assistants in the Lunatic Asylum Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat sleep or walk. I had the most distressing pains and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good. I am so much better—indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully,

JAMES CUMMINGS.

FITS! FITS FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age who has been several years afflicted with Fits we tried almost every thing for her, but without success at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming ruggid and hearty, for which we feel grateful Yours respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Fall of the Womb, Costiveness, Piles, Leucorrhoea or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness.—It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, *"The turn of life"* should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period *may be delayed for several years by using this medicine*. Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness, Cramps Swelling of the Feet, Despondency Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe. This beauty is the offspring of nature—not of *powder* or *soap*. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold and impure she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, have spoiled their complexion by the application of deleterious mixtures. If they wish to regain elasticity of step, buoyant spirits, sparkling eyes and beautiful complexions, one thing they should use Dr Townsend's Sarsaparilla. Thousands who have tried it are more than satisfied are delighted. Ladies of every station [illegible]

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called theirs a *great remedy for females* [illegible] and have copied our bills and circulars which relate to the complaints of women word for word—other men who put up medicine have since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills &c are injurious to females, as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores; have taken only four bottles, it took them away, for which I feel myself under great obligation. Yours respectfully,

ISAAC W CRAIN 106 Wooster st.

OPINIONS OF PHYSICIANS.

Dr Townsend is almost daily receiving orders from Physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided

FITS-FITS!

HART'S VEGETABLE EXTRACT

Is the only remedy that can be relied on for the permanent cure of Spinal Complaints Spasmodic Contractions, Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affections Apoplexy, Paralysis, General debility Deficiency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all diseases that ever affect the human race

EPILEPTIC FITS,

or Falling Sickness, Hysterical Fits, Convulsions Spasms, &c. Dr Hart would impress it upon the minds of the afflicted that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. As its tendency is to insanity, madness and death, the [illegible]

SKILLFUL PHYSICIANS

of Europe, as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by many, until this most important of all discoveries was made by Doctor S Hart, nearly sixteen years since, during which time it has been performing some of the most

REMARKABLE CURES

upon record and has acquired a reputation which time alone can efface. Physicians of undoubted skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are thus afflicted as the only remedy

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine. One says, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness." Another says, "I thank God I feel that I am a well man. I also feel it my duty to proclaim it to the ends of the earth, that those similarly afflicted may find relief." Another (who is an

EMINENT LAWYER,

and well known in this city,) says "my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract. I have," he says, "should and ought to be sounded to the ends of the earth." Another says, "Language is entirely inadequate to express my gratitude to Dr Hart, for having been the means, under the blessing of God, of restoring me to good health, after having been afflicted with Epilepsy in its worst forms for more than twenty three years, and my morning and evening oblation of praise and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole."

Mrs J Bradley 115 Orchard street, New York states that she has been subject to Fits for many years, and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract

Dr Charles A Brown of Dover, Russell co, Alabama who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge

Curtis G Mayberry, Esq formerly Postmaster at Lamp Mills Crawford Co, Pa, now living in Erie Co Pa, states that for many years past he has been sorely afflicted with Fits, and he is now happy to state that a persevering use of Dr Hart's Vegetable Extract has restored him to sound health, being entirely freed from that worst of all diseases

Mr Stephen L Pratt, corner of Sixth Avenue and Twenty sixth Street, New York, states that Mr Charles E Boughton, a member of his family has been so severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business. Having used Dr Hart's Vegetable Extract (says Mr P) he was soon restored to perfect health, and left this city for the State of Ohio to resume his business

Rev Mr Smith, Rector of St Peter's Church, Spotswood, New Jersey, who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract, and his health has been so much improved that he hopes by Divine blessing to have no more Fits

EPILEPTIC FITS,

For twenty seven years and six months cured by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Secore Esq of Philadelphia, afflicted with Epileptic Fits for twenty seven years and six months—After travelling through England, Scotland Germany, and France, consulting the most eminent physicians, and expending for medicine, medical treatment and advice three thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever and was cured by using

HART'S VEGETABLE EXTRACT

I have spent over three thousand dollars for medicine and medical attendance. I was advised to take a tour to Europe with him, which I did. I first visited England. I consulted the most eminent physicians there in respect to his case, they examined him and prescribed accordingly. I remained there three months without perceiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians and the most that I received was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE.

I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statement and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract all [illegible] he was restored to

PERFECT HEALTH

His reason, which was so far gone as to unfit him for business is entirely restored, with the prospect now before him of life, health and usefulness. He is now 28 years of age, and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health

Now, sir, faith without works I don't believe in—To say I shall be ever grateful to you is one thing, and as I here enclose you one hundred dollars, I have no doubt you will think this another and quite a different thing. The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance. Yours, very respectfully

(Signed) WILLIAM SECORE.

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me, to the Editor of the GOSPEL BANNER.—

DOWN'S ELIXIR,—A CURE.

BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that in my sickness last winter and spring I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office. My cold continued until I was completely prostrated by bleeding, which created a dry, hard cough. My appetite failed my strength wasted, and my flesh disappeared. Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commended taking it, and continued its use until I had taken three bottles, when I became satisfied that it contained opium, making a large amount of physic necessary, and also contracting the very organs that should be relaxed. I used other kinds of patent medicines, but with no good effect. Seven weeks I continued gradually to sink under my disease at the expiration of which time, I was extremely weak my skin dry and husky, and my feet and hands cold most of the time. I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach. My tongue was coated with a thick white fur, bowels very irregular and costive, hectic fever night sweats, dry, hard cough difficulty of breathing and low spirits. My stomach at this time was so sore and weak, that it was with difficulty I could stand erect. This was my situation when I commenced the use of N H DOWN'S ELIXIR—And to my great joy, and the great joy of my friends I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy moisture upon the skin. I used three bottles in two weeks which entirely removed the soreness and weakness from my stomach gave me a good appetite, and greatly improved my strength. I continued its use six weeks, using six bottles in which time I was able to resume my ministerial labors. I have since recommended it to a large number, who have never known it to fail of doing good, where the directions were followed

I have given it to my children in *colds*, and in a case of *measles*, and it has proved all it is recommended to be.

I therefore *cheerfully* recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended. Yours truly, J... TUTTLE

Camden, August, 1849

Facts deduced from the foregoing letter

1st Down's Elixir is laxative—curing costiveness while other medicine increases it at difficulty
2d It is perspirant—It equalises the circulation—restores a healthy moisture to the skin, and vigor and tone to the system
3d It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system
4th It cures colds—is an effectual remedy for the measles, and proves ALL IT IS RECOMMENDED TO BE

DR. SPEAR'S

SO MUCH CELEBRATED

Indian Vegetable Medicines,

ARE Universally Acknowledged to be the Safest Cheapest and Most Effectual Remedies for the various Diseases of the Human system ever offered to the public. They can be relied on with confidence to cure all curable cases. Their action is immediate and thorough eradicating disease in its worst forms—Thousands who have been pronounced incurable by their Physicians, yet live, to testify the virtues of these extraordinary preparations, having been restored to sound health by their use

We will name here some of the principal Medicines and their uses, referring the enquirer after health, to the "FAMILY PHYSICIAN," a work edited by Dr J S Spear, who may be found a brief treatise on the origin and nature of the principal diseases which afflict humanity, directions how to preserve and restore health, together with some certificates from highly respectable persons testifying to the healing virtues and urging their importance. This book can be obtained of Dr Spear's Agents free.

BALM OF LIFE Nos 1 & 2—For Consumption, Dyspepsia Indigestion, Liver Complaint Debility Nervous Affections, Phthisic, Asthma, Palpitation, Bronchitis &c

CATARRH SNUFF—For Consumption, Catarrh Cough, Headache, &c., this is a certain cure for Catarrh, and surpasses any other preparation for cleansing the head in cases of cold, &c. THE LIVER WORT PILLS, have been for a long time considered a universal medicine. A trial of one box will satisfy the patient that they are the best purgative known—They remove the most severe colds coughs, pains or fevers if taken in season. SCROFULA SYRUP—This is one of the most effectual agents in use for cleansing and purifying the blood. It removes very impurity from the system, whether of a scrofulous or cancerous nature. It is a compound of seventeen ingredients, and of a purely vegetable character. For efficacy and safety it cannot be surpassed. CHOLERA MORBUS AND DYSENTERY CORDIAL, if used according to directions, a certain cure in every case for which it is recommended. GERMAN LOTION—This is warranted to cure the Salt Rheum in its worst forms. TONIC CORDIAL is one of the most powerful tonics ever discovered. It is the best female medicine to be obtained. WOMAN'S FRIEND, or the falling of the womb. This is the only remedy before the public for this purpose. It obviates the necessity of resorting to instruments, and is unquestionably a most certain remedy. EYE WATER—This is the best eye water now in use. GRAVEL MIXTURE.—This will cure all cases of the gravel. For other remedies see "Family Physician"

All the ingredients of the above medicines are furnished by Nature herself, and are combined in accordance with known principles universally received as sound by all scientific Physicians

Their merits have been acknowledged by thousands. They have been tested and proved to be equal to the consideration claimed for them

If a fair trial fails to restore health, so confident is the proprietor of their efficacy, that the expense of any other medicine which does effect a cure will be paid provided it does not exceed one hundred dollars

SHELL and SILVER COMBS,—a good assortment for sale at PATTEN'S,

McKENNEY'S

COSSACK SALVE.!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and Panaceas" that are now advertised as the *"most effectual"* and *certain cures"* for all diseases indiscriminately, to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add, that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue. But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated, we do not and shall not call to our aid the empty *"puffing of the Press,"* or the "bought certificates" of individuals; and shall make use of them only so far as they have been or hereafter may be, entirely *voluntary* and *unsolicited*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties. To say, else, were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years and in the winter of 1845 it commenced swelling from the ankle to the knee. After using many remedies without success I applied some Salve obtained of Mr A M McKenny and continued its application until I had used six bottles, which entirely cured me and I have had no return of the disease since. I would also say that I know the above Salve to be a sure for CORNS, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, I bought 14 rs of JONATHAN M KENNEY'S SALVE, which effected an entire cure in less than two months

I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle and found it equally beneficial. It can truly be called the All Healing Salve

Important Discovery

GRAY HAIR can be restored to its original color, whether Auburn Brown or Black. Sandy Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O M Ballard's

Permanent Liquid Hair Dye,

Of one preparation, which is entirely different from all other preparations of Hair Dye now before the public. Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious. On the contrary it improves the lustre of the Hair, promotes its growth, and prevents it from falling out and unlike other preparations, after the Hair is colored and dry, will not crock fade, or wash out

In short from its peculiar delicacy, softness, and easy application it is worthy the attention of all who may wish to improve the color of the Hair as it will make any shade, from a white to a jet black. It is now used to an unaccountable extent, by persons who have prematurely turned gray and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble,

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA*. Being poor, he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value. It had reached the ears of many nevertheless as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful

HEALING POWER

Knowing *many years ago* that he had, by his skill science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated. This time has come the means are supplied, this

GRAND AND UNEQUALLED PREPARATION

is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend's it improves with age and never changes but for the better because it is prepared on *scientific principles* by a scientific man. The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use, produce *fermentation* and *acid*, which is injurious to the system. Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in its manufacture. Moreover these *volatile principles* which fly off in vapor or as an exhalation, under heat are the very *essential medical properties* of the root which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else, they can then strain this insipid or vapid liquid sweeten with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP. But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form, and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases

Hence the reason why we hear commendations on every side in its favor by men, women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA* and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA PILES COSTIVENESS* all *CUTANEOUS ERUPTIONS PIMPLES BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart cold feet and hands cold chills and hot flashes over the body. It has not had its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus* or *Whites*, *Falling of the Womb Obstructed Suppressed* and *Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Kidney Disease*

By removing obstructions and regulating the general system it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions &c*

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion relieves the bowels of torpor and constipation allays inflammation purifies the skin equalises the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system. Is not this then

The medicine you pre eminently need!

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS.

while the other DOES; *souring fermenting* and *blowing the bottles* containing it into fragments the sour acid liquid exploding and damaging other goods. Must not this horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid.* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence heartburn palpitation of the heart liver complaint diarrhoea dysentery colic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head, Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood of deranged circulations and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell and infinitely *worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S P TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla*, is an IMITATION of his inferior preparation

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's *article!* and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have *sold* and purchasers who have used S P Townsend's *FERMENTING COMPOUND*

We wish it understood because it is the *absolute truth* that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart* and *infinitely dissimilar*, that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor, and never was is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease. It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience its

Transcendent Power to Heal
